

HEALTHCARE CAREERS

Jobs in healthcare are predicted to continue to grow for at least the next 6 years. Unemployment rates may still be high and the opportunities out there in specific careers might be waning, but there is one job sector that is promising -- healthcare.

The healthcare industry is changing rapidly, and career opportunities in healthcare and health and wellness are on the rise. Statistics from the U.S. Department of Labor indicate that 3.2 million jobs will be created by 2018 in the healthcare industry.

Come join the Highland Family!
We have career opportunities in the following areas!

Therapist

Provides individual, family and group mental health or substance abuse therapy for adults, adolescents and/or children. Other responsibilities may include crisis intervention to patients and families in acute distress; development and implementation of special patient groups or program modules; and completion of biopsychosocial and diagnostic assessments.

Must hold a Master's Degree in social work, counseling, or psychology and be licensed in the state of WV (or currently working toward licensure and willing to work toward an ACA).

Director of Nursing & Patient Care Services

Is responsible for the overall direction of clinical services, including nursing, dietary, infection control, and radiology services. Also establishes, implements, and evaluates goals and objectives that meet and promote the standards of quality and safety and contribute to the organization's strategic goals. Must hold current WV RN licensure. Master's degree in Nursing or progress toward a master's degree preferred. If Bachelor's degree in Nursing is highest degree, must have extensive expertise in psychiatric-mental health setting.

Registered Nurses (RNs) (Full time positions for the 3-11 shift)

Works with a treatment team to assess and provide services to individuals with a psychiatric diagnosis; Administers medications and follows all physician's orders in accordance with established hospital and licensing agency protocol; Provides education/explanation to patients, families, and co-workers regarding medication usage/maintenance, side effects, patients' rights, as well as other topics necessary for optimal patient care. Experience in psychiatric nursing preferred; knowledge of and experience with psychotropic medications.

Licensed Practical Nurses (LPNs) (Full time positions for all shifts)

Works under a qualified professional nurse; Participates in the planning, implementation, and evaluation of nursing care; Cooperates with the members of the nursing and medical staff and other hospital departments. Experience in psychiatric nursing preferred.

We offer competitive salary, paid time off, insurance benefits, wellness program, and 401k!

Please submit application with resume: Applications may be obtained at the reception area of Highland Hospital or apply online at www.highlandhosp.com. EEO M/F/D/V
